Next year's 25th anniversary will be cause for celebration, and KWIC plans to develop a number of activities to showcase what we've accomplished, give thanks to the community and have some fun. We'll post activities as we finalize plans on our website, at www.kwic.info.

YOUTH ACTION

Global Youth Day is coming up in April 2014! Global Youth Day is an annual community-based youth conference organized by a youth working group. This

event brings local youth together to learn about global issues and their local connections, to develop new skills and to learn from and network with other youth.

The Global Youth Day working group invites youth who are interested in issues of equity and diversity, social and environmental justice, and engaging in creative dialogue to join the working group planning the 2014 conference. For more information email John at globalyouthday@kwic.info.

The **Seeds for Justice** youth-led engagement program is looking for youth interested in the arts, social and environmental justice, and global education. Join the Facilitators Collective, help plan the 2014 Global Youth Day conference, and stay in touch to hear about other exciting youth-led events at KWIC. All youth welcome.

The **Facilitators Collective** is a youth-driven initiative that aims to develop and deliver interactive and creative arts-based workshops about social and environmental justice using a popular education and anti-oppression framework to youth in Peterborough and the surrounding areas.
